

How to Prepare for the Module Exams

You are only allowed one attempt to take your Module Exams. Here are some tips to help you study and prepare for your exams.

Review the Scenarios and take notes – make sure you include any difficult terms

Review the readings in the Tasks. Make sure you click on all links and screenshot any informative charts/diagrams/etc described in the lessons

Click the REVIEW tab. Quiz yourself on the question and see what you know. Look up the answers to questions you miss

A few tips for the exam:

- You can only take the exam once...make sure you are ready and have enough time blocked off.
- DO NOT USE INTERNET EXPLORER... often the exam will crash mid-way through when using IE...just use Firefox or Chrome instead
- Answer the essay questions with detail. Support your answers. I do give partial credit so write anything you know about the topic if you aren't sure :)
- USE YOUR NOTES! :)

Good Luck
